EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

This examiner's Amendment is allowed because the applicant's election of claims 1 and 21-32 has been without traverse. Thus the non-elected claims 33-43 are cancelled by the examiner in order to make the case allowable.

Please cancel claims 33-43

Reason for Allowance

Claims 1 and 21-32 are allowed for the following reasons:

The instant application is deemed to be directed to a nonobvious improvement over the invention patented in Pat. No. Cartier (US 4767177) and Bouygues et al. (US 4139260).

Claim 1 is allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious wherein the tip portion of the first ferrule is opposed to the second ferrule (meaning the second ferrule as a whole body being opposite to the tip of the first ferrule], and has a male convex shape extending to the end of the first ferrule tip portion, the tip portion has substantially the same cross section as the body when the tip portion adjoins the body, the geometry of the tip portion is different from the geometry of the body, and a surface of the tip portion slopes inwardly as the tip portion extends from

the body; and a surface of the tip portion slopes inwardly as the tip portion extends from the body in combination with the rest of the limitations of the base claim. Claims 21-25 are allowed in virtue of dependency.

Claim 26 is allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious a base section of the end having the male convex shape is continued to an end edge of an annular step which is formed to have a diameter reduced in a radial direction of the ferrule, and a base section of the end having the female concave shape is continued to an end edge of an annular step which is formed to have a diameter reduced in a radial direction at an open end of the ferrule in combination with the rest of the limitations of the base claim. Claims 27-32 are allowed in virtue of dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
